3. Align handle over holes on exterior of right hand door as shown below.
4. Align handle reinforcement over same holes on interior of right hand door and attach with two (2) #8-23 x 5/16 SEMS screws.
5. Insert throw bolts through guides and door slots with drilled-hole ends toward handle reinforcement.
6. With latch bar of cam in horizontal position as shown, place throw bolt holes over studs on underside of cam. Align square hole in cam with square shaft of handle and push cam on shaft.

NOTE: Both throw bolts will be slightly bent over edges of handle reinforcement when properly installed.

7. Install push clip on shaft to secure assembly.

NOTE: It may be necessary to use a mallet and round tube to properly seat push clip.
